Profile

I'm a passionate and versatile UI Designer with 20+ years of industry experience.

I specialise in:

- Creating clean, accessible and beautiful UI designs
- Iterative wireframing and testing
- Concept mock-ups
- Lo-fi prototypes
- Template design
- HTML/CSS/Sass
- JS and JQuery prototypes and templates

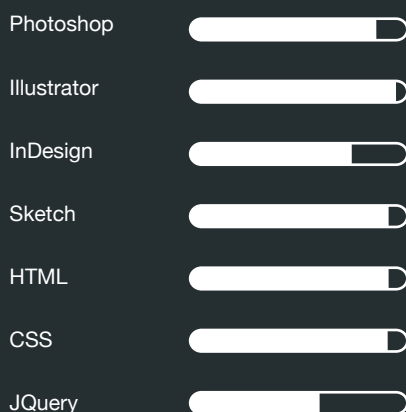

I originally trained in traditional and computer graphic design and moved into web design during my time in London.

In my current role at Datacom, I work collaboratively with my many clients, keeping them involved and up-to-date throughout projects.

I also mentor the junior designers and graduates and provide design support and mentorship at our innovation hackfests.

I am interested in accessible design which I apply where I can (adhering to WCAG).

Software Skills

Experiences

Senior Digital Designer

2004 - Present Day

Datacom Systems Limited, Auckland. New Zealand

In my role as a Senior Digital Designer in the Digital Experience Team, I'm responsible for a wide range of UI tasks including:

- Estimating and proposal review
- Analyse and amend CSS for Web App changes, improvement and refinement.
- Wireframes
- Concept mock-ups
- Lo-fi prototypes
- UI Design
- Template design
- HTML/CSS/Sass, JS and JQuery prototypes and templates
- Style guides

My toolbox of preference is Sketch/Invision and HTML/CSS/Gulp, but I'm just as comfortable using Adobe Creative Cloud.

Web and Print Designer

2001 - 2003

LCCM, London. United Kingdom

The LCCM employed me to design and build their website. I also worked with their integration team to build their Student Management System. Other tasks that were asked of me was to; design their identity logo, produce various print materials, course brochures, posters and stationery.

Designer

1996 - 2001

Contract UI Designer, London United Kingdom

I worked for various design agencies across London in a variety of roles including, UI design for interactive TV, Designer for Air New Zealand livery and British Telecom, where I was employed to help design the UI for a child safe web browser.

Education

Diploma of Computer Graphic Design

1992 - 1994

Whanganui School of Design, Whanganui New Zealand

Three year Diploma of Computer Graphic Design

Interests

Food

I enjoy preparing meals with my children and encouraging them to be involved the preparation and cooking of food. Together we try new recipes and discuss what recipes to try next.

Film

I'm an avid film fan. Drama and sci-fi are my favorites but can easily sit and watch other genres.

Music

I've always enjoyed music of all genres, particularly electronica, folk and rock. I'm also particularly fond of vinyl and I love discovering different and unique examples of cover art.
